PRELIMINARY PROGRAM

Dear Colleagues,

we are pleased to invite you to the 2<sup>nd</sup> Oncological Laryngology International Master, that will be held in Vittorio Veneto (Italy). After the huge success of the first edition in English language, both surgeons and radiotherapists, well-renowned in the laryngeal oncology field, will be involved in this year event.

The first day, the scientific program will start with an introduction to laryngeal oncology concepts, focusing on the key aspects deemed essential to improve on the topic.

For the whole duration of the Master, the morning schedule will propose 2D and 3D live surgery sessions: transoral laser microsurgery and open surgery. There, surgeons and attendees can mutually exchange their knowledge and insight.

Besides, skilled laryngological surgeons will give lectures and chair round tables every afternoon.

On a final note, we would like to extend warm thanks to the International Guests, Philippe Gorphe (France), Stefan Mattheis (Germany), Meijin Nakayama (Japan), and Michiel W.M. van den Brekel (The Netherlands) for their participation.

Our sincere gratitude also goes to the medical and paramedical staff of Vittorio Veneto Hospital - Otolaryngology Unit - whose contribution has been of crucial importance.

Best regards,

*Giuseppe Rizzotto  
Andy Bertolin*
